

No one expected 2020 to end up this way...the world...flipped upside down. We could walk into a store and not be scared of the other people, or products, we didn't need to cover our smile. But now we do! So we can smile again in the near future, do these activities:

1. Stay 6 feet apart

3. Keep hands clean and sanitized

2. Wear a face covering:  
Wearing a face covering includes:  
Surgical mask, cloth mask, home made masks  
bandanas, (etc.)

**DO'S:**

- Take what you need from stores
- Listen to stores
- Wash your hands to happy birthday or another song
- wear mask even if it's not required
- Stay safe with these tips :D

**DON'T'S:**

- Take the whole store home
- tell employees there crazy they know what they're doing
- just fine
- only wear a mask if needed to enter the store
- ignore everything here :D
